**RE: Request for Protection Against Shutoff of Utilities  
California Military and Veterans Code § 827**

Dear Sir/Madam:

This is an application for shutoff protection for utility service pursuant to Section 827 of the California Military and Veterans Code. I am a qualified customer under the provisions of that statute in that I am the customer of record for this service and I am a member of a residential household for which the income is reduced because:

- I have been called to serve on active state or federal military service beginning \_\_\_\_\_, 201\_\_.
- My spouse has been called to serve on active state or federal military service beginning \_\_\_\_\_, 201\_\_.

I enclose a copy of my military orders that specify the duration of the active duty status.

Pursuant to Military and Veterans Code § 827(g)(1), I hereby request establishment of a repayment plan requiring minimum monthly payments that will allow me to pay any past due amounts over a reasonable time period not to exceed one year after the end of the active military duty describe above. Please be advised that, pursuant to Military and Veterans Code § 827(g)(2), no late payment fees or interest may be charged during the period of military service or the repayment period.

Thank you for your cooperation.

Sincerely,

\_\_\_\_\_  
Signature
